

MUJI

Stacking Shelves/Wide (all types: Two-tier, Three-tier, Five-tier)  
Assembling and Operating Instructions

Thank you for purchasing MUJI Stacking Shelves. For long-term and safe use, **FIRSTLY READ these instructions and the attached Operating Instructions, Assemble and use the product carefully.** Keep these instructions in a safe place for future reference.

**CAUTION Read carefully before assembly:**

Secure enough space for assembly and take enough care to avoid damaging the floor or existing furniture, by covering the floor with a rug, etc.

- The Stacking Shelves should be assembled by two or more persons.

**WARNING Warning:**

- Do not allow children to climb on or play on this product. It might cause severe harm.
- If Main body is not secure, it could fall and cause damage or injury. Please take care

**CAUTION Precautions for use:**

- Move this product after disassembling it. Moving it in an assembled form might cause loose pipe connections.
- Do not use Single Basic unit laying it on its side, or with any divider plate removed. Single units must only be used in upright position

**CAUTION Precautions for installation:**

- Cover the floor with a rug, etc., when putting this product upright to avoid damaging the product.
- Retighten the fitting bolts about a week after you start using the Product.
- For safety, Periodically check for any loose bolts or steel pipes, and retighten as necessary

Parts checklist for Basic set

--	---	---	--	---	---	--	------------------------------	--

\* Parts of (10) through (15) are used for avoiding tipping of the product. See the attached %Instructions for anti-tip brackets+ for details.

<b>10</b> Right and left anti-tip brackets	<b>11</b> 4 x flat head screws	<b>12</b> 4 x round head screws	<b>13</b> 4 x washers	<b>14</b> 6 x pins	<b>15</b> 2 x pieces of double-sided adhesive tape
--	--------------------------------	---------------------------------	-----------------------	--------------------	--

Weight capacity:  
Two-tier: 20kg per shelf (30kg for the whole unit)  
Three-tier: 20kg per shelf (40kg for the whole unit)  
Five-tier: 20kg per shelf (60kg for the whole unit)  
\* Do not apply uneven load to the upper portion.

Assembly steps for Basic set \* Check each part on the parts list before assembly.

**Step 1** Connect pairs of steel pipes (03) together, Placing spacer (06) in between them. **Ensure they are fully tightened.**

**Step 2** Place one side panel (01) on a rug, etc. Insert the connected steel pipes (03) into the pre-drilled holes of the side panel (01). From underneath insert and tighten the domed cap nuts (07) using the allen key (08).  
Adjust the joint nuts in the four corners using the allen key to make the holes on the nuts and the holes on the side panels align together.

**Step 3** Insert the steel pipes (03) into the holes of the divider plates (02). Gently strike the divider plates if required to get the pipes through.

**Step 4** Put the side panel (01) on the steel pipes (03), positioning the pre drilled holes on the side panel with the pipes. Screw the bolts (05) into the steel pipes (03) with the side panel (01) in between, and firmly tighten the bolts with the allen key (08). Attach the felt sheets (09) on the bottom during installation.

**Step 5** Install the anti-tip brackets (10). See the attached instructions.

**Fully assembled Basic set**

\* Be sure to use the shelving unit in an upright position only after assembly.

\* Wood waste may fall during this step. It does not affect the use of this product.

Note that pushing the plates forcibly might cause break

Follow **Steps 1 - 5** in reverse order to disassemble this product after assembly.

Parts checklist for Additional set

<b>01</b> 2 x side panels Side punching done; Joint nuts assembled	<b>02</b> Divider plates Two-tier: x3 Three-tier: x4 Five-tier: x6	<b>03</b> Steel pipes Two-tier: x12 Three-tier: x16 Five-tier: x24	<b>04</b> Four joint nuts Provided Assembled within the side panel	<b>05</b> Spacers Two-tier: x6 Three-tier: x8 Five-tier: x12 Provided Assembled within the steel pipes	<b>06</b> One allen key (M4)	<b>07</b> 2x felt sheets
---	---	---	---	--	------------------------------	--------------------------

Assembly steps for Basic set and Additional set \* Check each part on the parts list before assembly.

**Step 1** Follow the Steps 1-3 on the left for a Basic set, or remove the bolts (05) for Basic set that fix the side panel of the Stacking shelves using the allen key (06). As shown below

**Step 2** Connect pairs of steel pipes (03) together, Placing spacer (06) in between them. **Ensure they are fully tightened.**

**Step 3** Screw the steel pipes (03) for Additional set into the pre drilled holes of the upper side panel by hand. Next, assemble the divider plates following **Step 3** on the left.

**Step 4** Screw the bolts (05) with the side panel (01) for Additional set in between, following **Step 4** on the left, and firmly tighten the bolts with the allen key (08).  
\* Ensure they are fully tightened again after screwing in all of the bolts.

Attach the felt sheets (09) on the bottom during installation.

**Step 5** Install the anti-tip brackets (10). See the attached instructions.

**Fully assembled Basic set + assembled Additional set**

\* Be sure to use the shelves upright after assembly.

**WARNING Warning (Follow below to avoid danger):**

- Do not allow children to climb on or play on this product. It might cause severe harm.
- If Main body is not secure, it could fall and cause damage or injury. Please take care
